*This System Manual has been carefully designed to provide you with all detailed guidance regarding our system and the **lifeminer.io** virtual office. Here, you will find all the information you need to start making the most of the features and benefits that Life Miner has to offer.*

In this comprehensive guide, you will discover how to navigate the virtual office, access available resources, understand how to run your own business from the palm of your hand, and most importantly, how to maximize your earning potential within our community.

HOW TO REGISTER AND CHOOSE YOUR PREFERRED LANGUAGE?

STEP 1:

Register using a user referral link!

- Each user can only have one account (one ownership);
- After registering, the user will receive a confirmation via registered email;
- When creating a user login, create just a single word (no spaces between characters).

Click here to copy your registration link!

STEP 2:

Change to your preferred language.

- Click on the top right corner to open the submenu and choose your language;
- Remember to click on the bottom left corner tab to activate the languages.

HOW TO BUY A MINING PLAN?

STEP 3:

Balance available for withdrawals!

Balance available to buy mining plan!

Click on the **[REPLENISH MINING]** button to follow the steps for depositing funds to purchase Mining Plans!

Choose your Mining Plan:

The first option is the traditional mining plan, with an average daily performance of 0.2%. Earnings accelerator mining plans have superior performance, but rewards are locked for 60, 90 or 120 days. However, the user can withdraw the rewards at any time, but will lose the excess staking performance.

In the calculator, select an amount multiple of \$50 to purchase your Mining Plan. Then, simulate estimated daily, monthly and annual earnings. Then click **[ACCEPT THE STAKING PERIOD]**.

Select any available Mining Plan and carefully read the Agreement **(AGREEMENT)**. If you clearly understand the terms and conditions and agree, proceed to the next step, which is to access your deposit method area. Pay special attention to the Blockchain network on which the shipment will be transacted.

Important: When choosing USDT BEP20, deposit only USDT BEP20, if you deposit BNB to a USDT BEP20 address or vice versa, the user may lose their funds.

If you have any questions, please contact the Customer Support Channel: support@lifeminer.tech

HOW TO BUY THE MINING PLAN AND VERIFY THE PURCHASE?

STEP 4:

Click the button to copy the deposit address or scan the QR CODE

- In this example, you can only send USDT from the BEP20 network, if you send from another Blockchain network you will lose your funds;
- Deposits start at \$50 and we recommend always adding up to 0.5% to the amount deposited to cover the shipping fee charged on the Blockchain network of your chosen asset.
- Wait an average of 15 minutes for the transaction to be validated on the Blockchain network.

STEP 5:

Confirmation of Purchase Mining Plan

After validation on the Blockchain network of the currency in which the deposit was made, check this area for the **[200% Progress Bar]** to be enabled to confirm your purchase. **Each deposit user generates a new mining plan with a multiple value of \$50 and the Txid identification (transaction hash for verification on the blockchain).**

Pay attention to the SUPER EARNING CAPS: 300% Cap for Plans from \$10,000 up to \$49,950 and 400% Cap for Plans above \$50,000

HOW TO BUY THE MINING PLAN WITH EARNINGS ACCELERATOR (STAKING) AND VERIFY THE PURCHASE?

In the main area, you can identify your stake through this icon, which displays the value and period of the mining plan.

Auto-renew to start a new rewards lock-in period after expiration. If this function is deactivated, your assets will automatically be directed to the [AVAILABLE FOR WITHDRAWAL] area.

In this section, you will find a countdown of the last 30 days since its activation in the system. Click the button to access the monthly activity rules and understand their dynamics.

THIS RULE ENABLES EARNINGS AND COMMISSIONS FROM THE 2ND LEVEL ONWARDS DURING THE ACTIVATION PERIOD.

Personal purchase of \$100 or a new direct sale of \$100 to be active in the system and be entitled to receive the Matching Bonus (second level onwards) and the Infinite Leadership Bonus!

Each user will have a 30-day countdown timer when this prerequisite is enabled, meaning every time there is a purchase or sale of a volume greater than \$100 dollars, the counter starts counting again for 30 days!

300% EARNINGS CEILING AND SPECIFICATIONS ON THE DASHBOARD

Progress Bar of 300%:

To unlock the 300% maximum earnings limit, the user must have a **minimum sum volume of \$1,000 in Mining Plans sold through their referral link.**

EXAMPLE:

Total sum of Mining Plans purchased in the account!

Note: At the end of each progress bar it shows the value multiplied by "2X" or "3X".

- This field shows the total number of purchased and active (in progress) mining plans.
- This field shows the total rewards remaining to reach the earnings ceiling on the account for renewal purposes.
- This field shows the total earnings (mining performance and commissions) for withdrawals.

PARTNERS MENU

Displays unlocked and locked Matching Bonus levels.

This panel displays the 20 Matching Bonus levels, which are unlocked as the user reaches certain levels in the unilevel structure, according to the specific prerequisites for each level. Daily, at 00:00 (UTC time), the system updates personal and team-wide purchasing and sales volumes, updating points and unlocking the corresponding levels.

Once a level is unlocked, this status is guaranteed; in other words, the system does not backdate, even if the user does not renew their qualification. However, to receive unilevel commissions, the user must always have a sufficient earnings ceiling to absorb these bonuses.
