## HOW TO BUY A MINING PLAN?

### STEP 3:

**Select your Mining Plan and your deposit method and pay attention carefully to which Blockchain network the shipment will be transacted on.**

**Important:** When choosing USDT BEP20, deposit only USDT BEP20, if you deposit BNB to a USDT BEP20 address or vice versa, the user may lose their funds.

**If you have any questions, please contact the Customer Support Channel: [support@lifeminer.tech](mailto:support@lifeminer.tech)**

### STEP 4 :

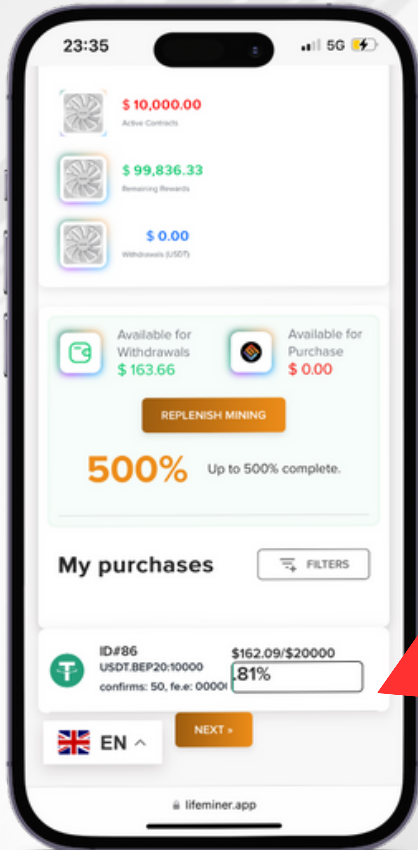

**Click the button to copy the deposit address or scan the QR CODE**

- In this example, you can only send USDT from the BEP20 network, if you send from another Blockchain network you will lose your funds;
- Deposits start at \$50 and we always recommend adding 0.5% to the amount deposited for the shipping fee.
- Wait an average of 15 minutes for the transaction to be validated on the Blockchain network.
